

The Path to

TRADING SUCCESS

Take Control of Your Financial Future

**Yes, there IS
a way to make
money in this
market!**

OmniTrader
Special Offer Enclosed

Trade the Moves.

Make money in **ANY** market.

If you wait for the market to rally before “getting in” you can find yourself being the last buyer. And those who sell everything at lows are often the last losers. *But that is precisely what millions of investors do, because they have been taught to “Buy and Hold”.* As a result, they end up buying at highs and selling at lows, after the last ray of hope evaporates. If that sounds familiar, rest assured you are not alone.

The truth is, contrary to what brokers and financial advisors have been telling us for years, **BUY and HOLD Investing IS RISKY!** But here’s good news:

You **CAN** take advantage of the natural rhythm in the market and make money no matter what the market does. It’s a simple concept we call “Trade the Moves”.

It’s time to learn how to **TRADE THE MOVES.**

Here’s a chart for CECO in 2008. The “market” as measured by every major index dropped precipitously in ‘08—especially at the end of the year. However, by Trading the Moves on this stock (Buying low and Selling high), a 150% gain was possible! And if you had sold Short at the Sell Signals you could have doubled that.

How does one **TRADE THE MOVES?**

1. Find stocks that are **READY TO MOVE.**
2. Generate Buy and Sell Signals on those same stocks.
3. Trade the best candidates, placing “stops” at strategic levels.

The 3 STEPS to Trading Success

TAKE CHARGE OF YOUR FINANCIAL FUTURE!
This Simple 3-Step Process can help you build
for Retirement, College, or any other goal.

STEP 1 Find Stocks that are **READY TO MOVE**

OmniTrader has all the tools you need to Trade the Moves successfully. Your Path to Trading Success begins with OmniScan—our technical and fundamental screening tool that comes bundled with OmniData, our End-of-Day data service.

Scans generate lists of stocks that have outstanding movement potential. For example, you can scan for all stocks that are breaking their highs. Or all stocks that have rallied the past few weeks on volume.

By themselves, these scans can find some very profitable candidates, but their greatest value comes in Step 2 (described on next page).

The screenshot shows the 'Focus List' window with the following data:

G	Symbol	Sig	Adv	BTNL	BTNS	BTNT
<input type="checkbox"/>	ARST	▲	1	0	0	0
<input type="checkbox"/>	GCA	▼	0	2	3	5
<input type="checkbox"/>	SWKS	▲	54	3	4	7
<input type="checkbox"/>	PMCS	▲	0	2	3	5
<input type="checkbox"/>	SWHC	▲	70	3	3	6
<input type="checkbox"/>	DIIM	▼	28	3	2	5
<input type="checkbox"/>	ES	▼	51	0	2	2
<input type="checkbox"/>	NVDA	▼	0	2	7	9
<input type="checkbox"/>	TLB	▼	52	2	2	4
<input type="checkbox"/>	ARBA	▼	59	1	3	4
<input type="checkbox"/>	OVTI	■	27	0	3	3
<input type="checkbox"/>	ASCA			5	4	9
<input type="checkbox"/>	GVHR			3	3	6
<input type="checkbox"/>	FL			2	3	5
<input type="checkbox"/>	GA			0	2	2
<input type="checkbox"/>	DFT			1	3	4
<input type="checkbox"/>	MRVL			2	4	6
<input checked="" type="checkbox"/>	SPII			2	3	5
<input type="checkbox"/>	STEC			0	4	4
<input type="checkbox"/>	TSM			1	1	2
<input type="checkbox"/>	VLTR			5	3	8
<input type="checkbox"/>	MF			3	0	3

The 'Symbol Lists' panel on the right shows the following filters and counts:

- Nirvana's Lists
- Large Cap Stocks: 2,720
- Big Bears: 124
- Big Bulls: 19
- Uptrending Stocks under \$10: 27
- Strong Stocks Showing Weakness: 5
- Low P/E with Earnings Growth: 771
- New 52 Week High: 13
- Smooth Movers: 1,117
- New 52 Week Low: 1,612
- Overbought and Turning: 1
- Oversold and Turning: 8
- Bullish MACD Crossovers: 43
- Bearish MACD Crossovers: 30
- Gaps Down: 9
- Gaps Up: 265
- Volume Declining: 97
- Volume Rising: 370
- Volume Climax: 14
- Stocks At or Near 52 Week High: 24
- Stocks At or Near 52 Week Low: 1,210

Stock ARST (Arcsight) was identified in early December by our **Uptrending Stocks Under \$10** Scan. After being identified, ARST rallied 30% in the face of a declining stock market.

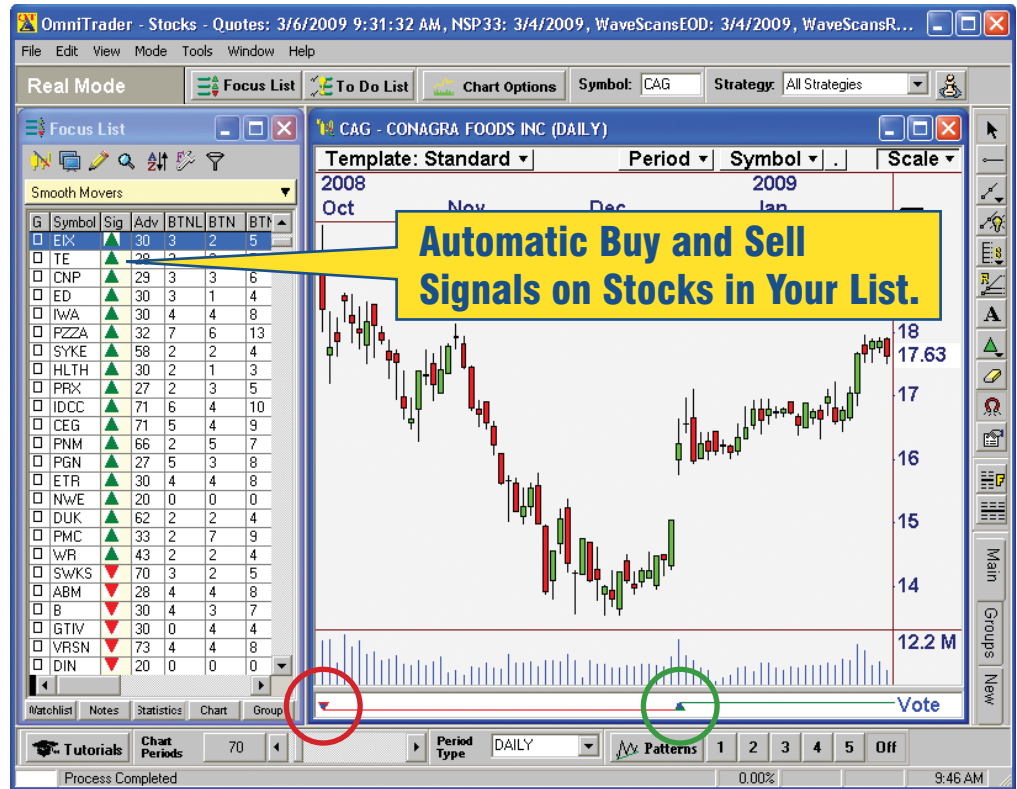

*"Thank you for OmniTrader! I have learned so much in such a short period of time. In less than 2 weeks, I have **made back my prior losses** AND gained quite a bit on top of that AND this is only the beginning!"*

- Yhai S.

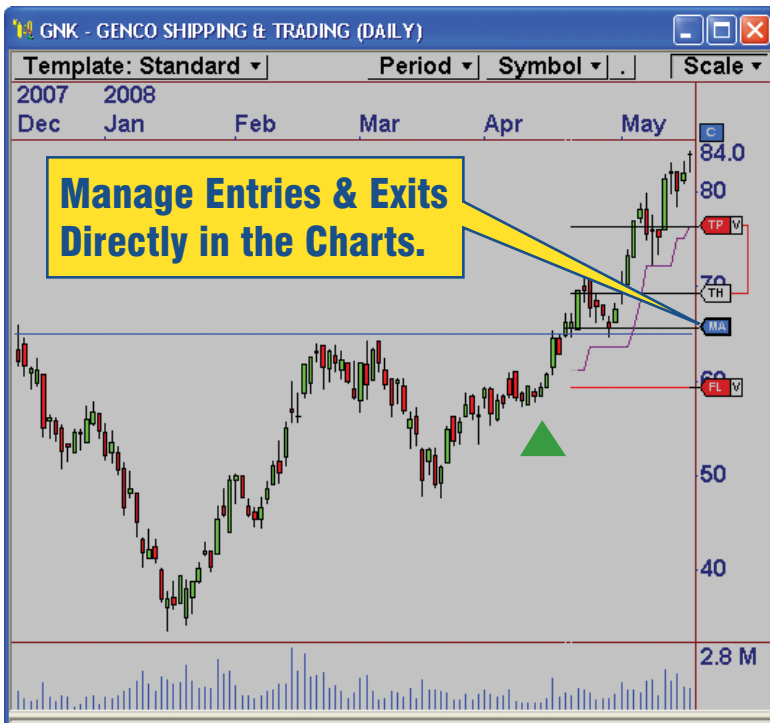

STEP 2 Generate GREAT Buy and Sell Signals

OmniTrader has been refined over 15 years to be the best program in the world to generate Buy and Sell opportunities for our customers. Just add a targeted list (see Step 1, prior page) and OmniTrader will generate powerful Buy and Sell Signals on the list.

OmniTrader comes with several powerful Trading Strategies like “Breakout” and “Reversal”. Activate one or more Strategies and the Signals are automatically generated, ready for action. If you are an advanced user, you can create your own Strategies—an advanced feature described on the next page.

STEP 3 TRADE in the Charts

A robust portfolio is integrated right into OmniTrader, so you can easily track your positions. You can also adjust your exit points (stops) right in the charts, using “Visual Brokerage”. Just grab a Chevron on the right side of the chart and slide it into position. OmniTrader’s integrated brokerage feature works directly with several popular brokers, or you can post entry and exit levels with another broker. Once you place a trade, Trade Plans can manage the trade for you—another OmniTrader exclusive feature.

“The number of features OmniTrader has and its ease of use make it stand head and shoulders above the competition.” - Ken O.

PLUS Advanced POWER USER Features

OmniTrader is EASY to USE, but it's also powerful. Experienced users will take advantage of the many advanced features that ONLY OmniTrader has.

Creating New Strategies is EASY!

Strategy Builder Strategy Builder makes it easy to apply advanced concepts to create new Strategies. For example, we might only want to see a Signal from a Moving Average System when Volume is also increasing. Adding this condition is easy in Strategy Builder—just insert a Confirm Block in the Strategy Flowchart to confirm the Signal with that condition.

Voted Signals With OmniTrader, you can activate more than one Strategy and OmniTrader will “vote” the Signals to determine whether a consensus exists between the individual Signals before generating a signal to be traded.

Programmable Exits Trade Plans automatically manage your trades. Use any of the built-in conditions to establish exit points. Trade Plans can also “branch” on conditions related to any symbol. So, for example, if you want to close Long Positions when a major Index (like the Dow or S&P 500) starts to fall, you can set your Trade Plan to automatically do that.

Step	Virtual Condition	Order	Next
1	Initial Order	Buy 100% Market, GTC	2
2	100% Long		
	Fixed Loss Stop	Sell 100% Market, GTC	End
3	Fixed Profit Stop	Sell 50% Market, GTC	3
	50% Long		
	Trailing Profit Stop	Sell 50% Market, GTC	End

Blinding Analysis SPEED

OmniTrader's Trading Systems run HUNDREDS of TIMES FASTER than the competition, meaning you can analyze very large lists of Symbols each day.

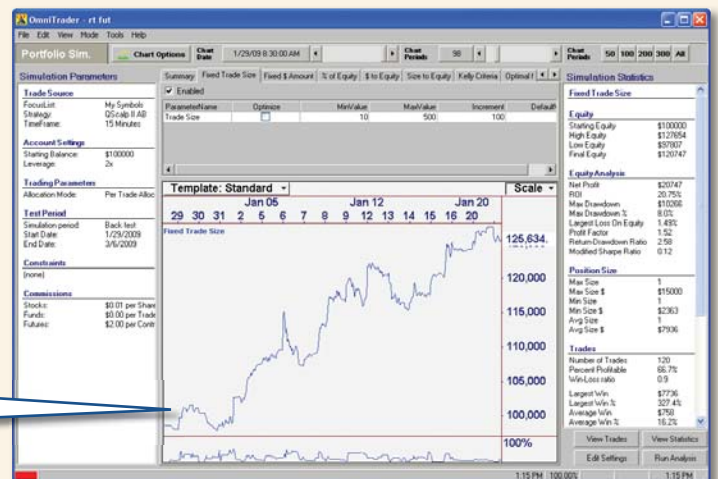

Portfolio Simulator

It's easy to find out how OmniTrader's Systems have performed over time, with the advanced Portfolio Trading Simulator. All standard simulation methods are provided.

The Portfolio Simulator will help you see which Strategies are performing the best in the current market, so you know which ones to activate for live trading.

Simulated Equity Curve

AND the Right Training

Our Mission: To help you *Trade the Moves* profitably. In order to give you all the information you need, we provide several powerful training resources FREE!

Built-In Tutorials

Click the Tutorials button in OmniTrader and you will get detailed, multi-media presentations on how to use the tools in OmniTrader, enabling you to refine your technique and improve your results.

Trading Simulators

Learn to trade without risking a dime!

OmniTrader includes two trading simulators, **The Trading Game** and **Lab Mode** to help you learn the art.

Activate “Game Mode” and OmniTrader automatically selects a stock from your list and a date in the past, which are hidden from you. Your challenge is to trade with the tools in the program to make as much as you can in a given number of simulated trading days.

It’s a fun and intuitive way to learn the program and hone your skills—and **ONLY OmniTrader** has it.

Once you’ve played some games, you’ll be ready to fire up the full Trading Simulator called “Lab Mode.” Similar to the Trading Game, Lab Mode goes back in time and lets you practice trading a “portfolio” of stocks. Enter multiple positions, set stops, and improve your technique until you are ready to trade the real market, without risking anything while you are learning.

Since both the Trading Game and Lab Mode operate at an accelerated pace, you will learn much more rapidly than if you were “paper trading” in the actual market over days of time. It’s more engaging, too.

SignalWatch LIVE

TRADING NETWORK

LIVE, "How-to" Training from our knowledgeable trading staff!

SignalWatch LIVE is our NEW trading communication platform designed to connect our users to each other and to our trading staff. Throughout the trading day and after the close we use OmniTrader to find great candidates and post them into SignalWatch LIVE!

Our users see charts and hear commentary from our knowledgeable trading staff. Find out when the market is approaching key levels, or when significant news breaks that could affect the market or an individual Stock or Futures contract. We also provide FREE training seminars on how to best use the software.

Get connected!

SignalWatch LIVE is a full chat application where users share trading ideas, trading methods, and more. Get connected—with SignalWatch LIVE! You also get a trial subscription to our Real Time Stock and Futures alerts, from which customers are making money in the markets each day.

“The NASDAQ has just reached major support.”

“You’ve hit the ball out of the park with SignalWatch LIVE! I have consistently made money trading the candidates you post.” – Don L.

The best path to Trading Success is to **Trade the Moves**. And OmniTrader is the best program to help you master the art. When you order OmniTrader, you also get SignalWatch LIVE and a free trial to OmniData and OmniScan—everything you need to Trade the Moves successfully.

Our 100% Money Back Guarantee:

If for any reason you are not satisfied with your OmniTrader purchase, return it within 90 days and we will refund 100% of your purchase price.
